Lpdf

Row: fill

A child with width="fill" takes the width its line leaves; the others keep their own width

width="fill" (which child fills)

fill on the last child — the other on the left

Label This content fills the remaining width

fill on the first child — the other on the right

This content fills the remaining width Action

fill on the last of three — two children on the left

Icon Label Fill content stretches to fit

fill on the first of three — two children on the right

Fill content stretches to fit Edit Delete
