Platform Features

Everything included in your Acme Pro subscription — twelve capabilities across four rows.

Single Sign-On
Security

Connect any SAML 2.0 or OIDC identity provider in minutes with no custom code.

Audit Logs
Security

Immutable, tamper-evident logs of every user action with 90-day retention.

Role-Based Access
Security

Assign fine-grained permissions to teams, projects, and individual resources.

REST API
Integration

Full-coverage OpenAPI 3.1 spec with SDKs for Python, Node, Go, and Ruby.

Webhooks
Integration

Push real-time event notifications to any HTTPS endpoint with retry and delivery logs.

Custom Domains
Branding

Serve the platform from your own domain with automatic TLS provisioning.

Analytics Dashboard
Insights

Pre-built charts for usage, retention, and revenue with CSV export.

Scheduled Reports
Insights

Deliver daily, weekly, or monthly digest emails to any list of recipients.

Data Retention
Compliance

Configure per-workspace data lifecycle policies from 30 days to 10 years.

Priority Support
Support

Dedicated Slack channel and 4-hour SLA for P1 incidents around the clock.

Uptime SLA
Support

Contractual 99.9% monthly uptime with automatic service credits on breach.

SOC 2 Type II
Compliance

Annual audit reports available on request. GDPR and HIPAA BAA included.

All features are available on Pro and Enterprise plans. Contact sales@acmecorp.example for custom pricing.
