Made with Lpdf

Counter: page

The numbers start over on every page.

The first page of the section has two notes[1], and they are numbered from 1[2].

[1] The first note of the first page.

[2] The second note of the first page.

Made with Lpdf

The second page of the section has two notes too[1], and the numbers start over[2].

[1] The first note of the second page.

[2] The second note of the second page: its number is 2, though the section has four notes.

Made with Lpdf

Counter: document

The numbers go on across the sections that count so.

This section is the first to count across the document[1], so its notes are numbered from 1[2].

[1] The first note of the document counter.

[2] The second note of the document counter.

Made with Lpdf

Counter: document, again

It goes on from the section before.

This section goes on from the two notes before it[3], so its notes are numbered 3[4] and 4.

[3] The third note of the document counter.

[4] The fourth note of the document counter.

Made with Lpdf

Counter: section

The numbers start over in the section, which is what a section does without a counter.

This section counts its own notes[1], from 1[2], whatever the sections before it did.

[1] The first note of the section.

[2] The second note of the section.
